WORK EXPERIENCE

Department of Science and Technology – Region V

February 2026 – May 2026

IT Intern | Regional Center Site, Rawis, Legazpi City, Philippines

- Contributed to the development of DOCS 2.0, a Document Operations and Communication System, as Assistant Full-Stack Developer and UI/UX Designer using Laravel and MariaDB
- Assisted in front-end and back-end development, implementing workflow features, notification systems, and interface design improvements
- Provided IT support during internship by resolving technical issues, troubleshooting hardware and software concerns, assisting with technical setup for meetings and presentations, and maintaining office devices such as printers and workstations

PROJECTS

iHealthLink – Integrated Barangay Healthcare Management System

Capstone Project | Team Leader & Full-Stack Developer | Laravel, Flutter, MariaDB, SQLite

- Designed and developed a healthcare management system for Barangay Health Centers, focusing on usability, offline support, and real-world clinical workflows

DOCS 2.0 – Document Operations and Communication System

Internship Project | Assistant Full-Stack Developer & UI/UX Designer | Laravel, MariaDB

- Built and improved a document operations system for DOST Region V, handling workflow automation, notifications, and interface redesign

Additional Projects

- MyGradeTrack – Web-based online grade tracker | Laravel | MariaDB
- Peter's Hotel – Hotel management system and e-commerce platform
- CodeFlow – Web-based personal operating system
